

THOMPSON & BRYAN Fire Damaged Convenience Store

Acting on behalf of Thompson & Bryan who are one of the UK's largest loss assessors, Ramco were recently asked to provide a disposal solution for a small convenience store that had suffered fire damage. A site visit was undertaken the following day and having established the value of stock remaining, an offer to purchase was accepted. Early the following week a Ramco clearance team arrived with all necessary equipment including portable lighting; suitable packaging material as well as brushes and shovels! The site was left in a clean and tidy state for when the owners returned from holiday the next week.
